**Intelligent technology meets home entertainment  
Loewe and Gira: two strong partners**

Dear Sirs,

In Germany, Gira and Loewe already have a working relationship with their products meeting in many intelligent homes.

We are proud to inform you, that this cooperation has started in the United Kingdom as well.

The Loewe devices are integrated into the Gira KNX building technologies. The Gira HomeServer 3 and Gira Control 19/Control 9s' are connected with the Loewe Individual Mediacenter that provides the music; the Gira Interface automatically recognises the list of the saved music tracks and informs the Loewe Individual Sound Multiroom Receiver which music it should play in the respective room. It can also be controlled with the Gira Interface by calling the web interface of the Loewe Individual Mediacenter.

If you would like to have more information, please do not hesitate to contact either the Gira staff in the United Kingdom:

Mr. Muir Baxter  
Tel. 07738 232 816  
email: [muir.baxter@gira.de](mailto:muir.baxter@gira.de)

or Loewe UK Ltd.  
Tel. 020 7368 1100  
[www.loewe-uk.com](http://www.loewe-uk.com)

or Ivory Egg (UK) Ltd.  
Tel. 01243 572 700  
[www.ivoryegg.co.uk](http://www.ivoryegg.co.uk)

Yours sincerely

ppa. Jacob de Muijnck  
Exportmanager Northern Europe
